HAZ Series

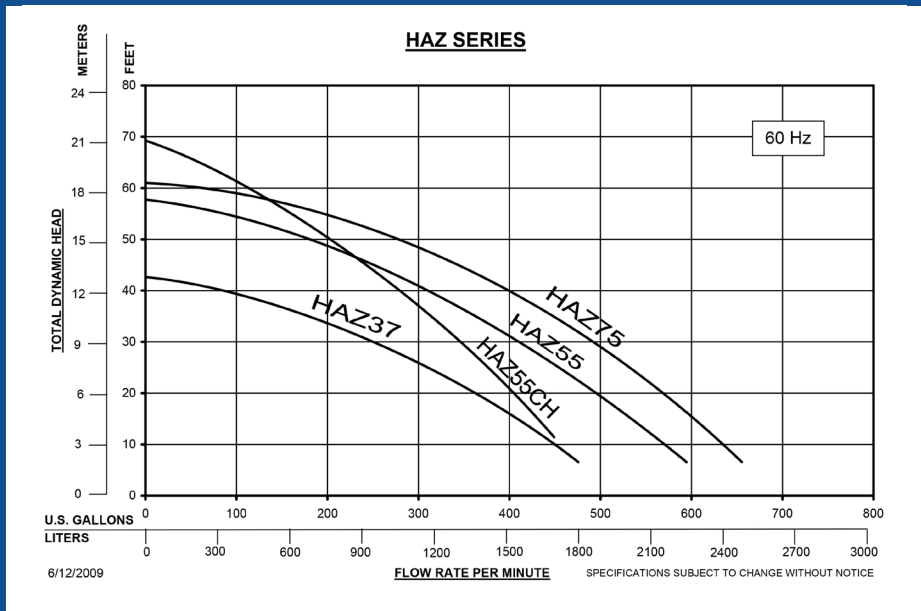

MSHA-Approved HAZ Series Hard Metal Agitator Slurry Pumps

BJM Pumps® HAZ Series pumps are the first permissible slurry pumps with an agitator. They are designed and constructed for abrasive coal slurries. These pumps resist abrasive wear that causes a loss of pump performance. Our durable pumps are built to keep your production running to save you maintenance, repair, labor and downtime costs.

To learn more about getting "The Pump you Need, Guaranteed™" visit www.flowsolutions.com or call 860-399-5937.

Key Benefits of the HAZ Series

- High-chrome iron impeller, wear plate and agitator
- Built-in agitator keeps solids from settling at the bottom to prevent clogging
- Hardened ductile iron volute
- Class H motor insulation with amperage and temperature overload protection
- Available as MSHA Part 7 (pump only) or MSHA Part 18 (pump with controls)

MODEL	H.P.	VOLT	RATED AMPS	DISCH. SIZE	MAX SOLIDS	MAX HEAD	MAX GPM	PHASE
