UNPLANNED MAINTENANCE CONSUMES

60%

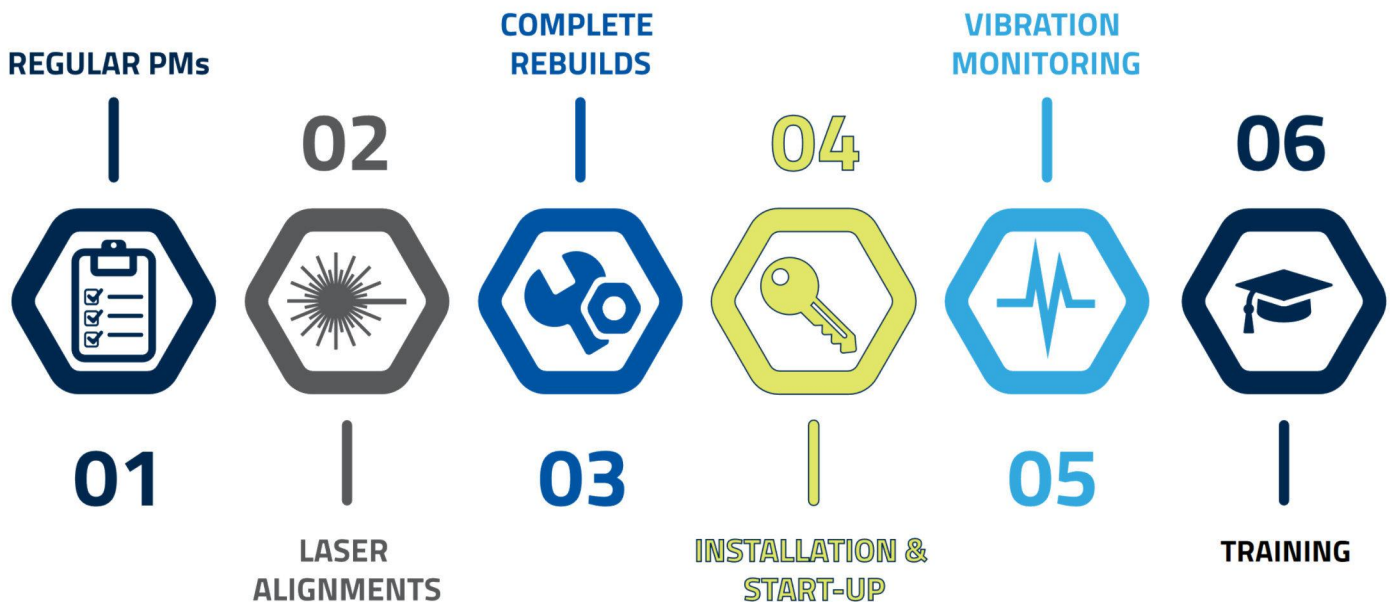

OF MAINTENANCE BUDGETS

Unplanned repairs of fluid process equipment are typically 5-15x higher than proactive maintenance effort due to:

- Overtime
- Rush parts
- Emergency service vendors
- Scrapped production

If you could significantly reduce unplanned repairs, what would YOU do with the savings?

A SUCCESSFUL FLUID PROCESS EQUIPMENT RELIABILITY PROGRAM INCLUDES:

DOES YOUR TEAM HAVE TIME/SKILLS FOR IT ALL?

Partner with Phoenix Pumps today and you will.

Make your job easier

- No need to add and train more personnel
- Technicians that work well with yours
- Stay on top of repairs and maintenance with regular updates

Quality work done by industry experts

- Specialists in fluid process
- OEM authorized repair shop
- 1 year warranty on OEM quality repairs

SUPPORT SERVICES

Behind on repairs? Use our technicians to catch up. We fill in the time and expertise gaps for OEM quality repairs. Whether you need a basic repair, preventive maintenance program or a complete reliability program, Phoenix Pumps has a solution for you. Our services are backed by a 1 year service warranty.

PUMP REPAIR

Our 41,000 square foot service center features:

- Small & large pump repair
- Machining services
- Metal fabrication
- Specialty metal coatings
- Failure analysis
- Motor testing up to 500 HP

MECHANICAL SEAL REPAIR

Expert OEM mechanical seal repairs for a variety of the world's premier mechanical seal manufacturers.

Our technical field specialists can help you select a sealing solution for the most troublesome applications.

INSTALLATION & START-UP

Field services include:

- Replacements & retrofits
- Laser shaft alignment
- Vibration analysis
- Pump controller programming
- Troubleshooting
- Start-up & training

PREVENTIVE MAINTENANCE

Reduce unplanned downtime with routine preventive maintenance.

- Laser shaft alignment
- Temperature & vibration
- Bearing and lubricant condition
- Overall equipment condition

EMERGENCY PUMP SERVICE

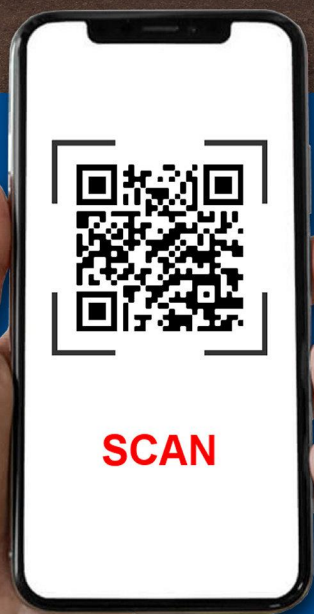

As long as our customers are running 24/7/365, we will too. When equipment fails, know that you can call us, get a live person, and get help. Now.

LARGE LOCAL INVENTORY

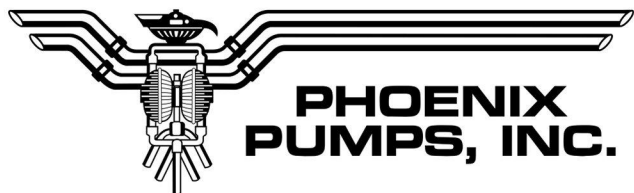

We represent many of the world's premier fluid technology manufacturers. We carry a wide variety of pumps, motors, filters and other related process equipment, on the shelf.
